

Kingman Main Street is a group of community-minded volunteers working to facilitate the revitalization of downtown Kingman, Arizona. We follow the approach of the Main Street Movement, advocating for preservation-based economic development and community revitalization across the country.

The Main Street Movement centers their strategies for transformation on the following four points:

Economic vitality focuses on capital, incentives, and other economic and financial tools to assist businesses, catalyze property development, and create a supportive environment for entrepreneurs and innovators that drive local economies.

Design supports a community's transformation by enhancing the physical and visual assets that set the commercial district apart.

Promotion positions the downtown or commercial district as the center of the community and hub of economic activity, while creating a positive image that showcases a community's unique characteristics.

Organization involves creating a strong foundation for a sustainable revitalization effort, including cultivating partnerships, community involvement, and resources for the district.

Our mission is to make the heart of Kingman a vibrant center of economic and cultural activity by partnering with public and private stakeholders to rekindle community pride, capitalize on our unique physical assets and history, and encourage downtown revitalization and investment.

Our vision is to forge partnerships creating a unique and vital downtown that enriches the business community, embraces history, celebrates the arts, preserves our natural environment, and promotes quality events to instill a sense of place and community.

If your business or organization hosts events or operates downtown, please reach out to us to see how we can help make what you do an even bigger success. It is with a sense of collaboration and community that we can all create the vital and vibrant downtown our community deserves!
